WORK EXPERIENCE

IT Specialist

Plasson Ltd.

May 2024 - Present

- Resolved hardware, software, and network issues — handled 90% of tickets independently without escalation
- Installed, configured, and maintained IT equipment and software applications across the organization
- Monitored systems and networks to ensure optimal performance and security

IDF Officer

Israel Defense Forces

Dec 2018 - May 2024

- Led end-to-end execution of complex operations — managing cross-functional teams of up to 30 personnel under high-pressure conditions
- Defined objectives, coordinated stakeholders across departments, and drove full delivery from planning through execution
- Delivered 200+briefings and hands-on training sessions; developed SOPs adopted across the unit

AI & AUTOMATION PROJECTS

Multi-Agent Personal Assistant

Python · Claude API · Flask · Telegram · Railway.app

- Identified the need for a unified personal intelligence layer — designed and shipped an MVP with 5 specialized agents: Finance, Sports, Fitness, Calendar, and Email
- Sends a personalized Hebrew daily brief at 08:00; answers natural-language queries via Telegram bot, running 24/7 in the cloud
- Architected multi-agent routing and orchestration via Claude Opus API; deployed on Railway with automated scheduling via Windows Task Scheduler

Automation Pipeline — Garmin + Power BI

n8n · Telegram · Claude API · Excel · Power BI

- Designed an end-to-end fitness data pipeline to surface personal performance insights: Telegram bot → n8n → Claude API → Excel → Power BI dashboard
- Presented as a standalone automation proof-of-concept in an Information Systems Foundations course

CERTIFICATIONS

AZ-104 Certification

Microsoft Azure Admin

LPI 010-160

Linux Essentials certificate

SKILLS

AI & Agents

Claude Code, ManyChat, Fastbot

Automation

Make.com, n8n, Zapier

Programming

Python, Java, SQL, Bash

Cloud

Azure, Docker, GitHub Actions

Web & Data

React, FastAPI, Power BI

IT & Infra

Windows Server, Linux

Office

Advanced Excel, PowerPoint

EDUCATION

B.A.Information Systems Management

Ben-Gurion University Oct 2025 – Present

Relevant Coursework:

- Java Object-Oriented Software Development
- Fundamentals of Information Systems
- Introduction to Programming
- Discrete Mathematics
- Statistics

Certified Hands-on Cyber Security Specialist (CHCSS) | 500+hrs

KERNELIOS 2025 | Grade 97

- Cyber Security: Network traffic analysis (Wireshark, NMAP), malware analysis, and attack/defense methodologies.
- Networking: OSI/TCP-IP models, switch/router configuration, and routing protocols.
- System & Linux: Windows Server/Active Directory management, Linux administration (LPI), and virtualization.
- Practical Labs: Hands-on training with cyber threat simulators.
